|--4-----4----6----4--|--s6--6--6----s4--4--4-----|
|--2-----4----4----2--|--s4--4--4----s2--2--2-----|
|--0-----2----4----2--|--s4--4--4----s2--2--2-----|
```

Notes

During the Intro & Verse, play the riff, during the chorus play the chords. Listen to record to get timing down.

Play the turnaround every time after the A in the chorus instead of the Em & D chords notated.

[Intro]

[Verse 1]
Cara   Did he make you cry?   Put your hand in mine   I’ll make you feel all better
In a world that’s digitized   Lost to goldfish minds   You’re a handwritten letter

[Chorus]

```
G                             A     Em          D       G                  A    Em   D
She’s a door in a lucid dream    A miracle on 34th Street    A holiday beloved
G                             A                     Em                 D   G
I’ll confess she’s a drama queen    She makes it new    She makes it teenage every time
                        A       Em    D
With her feels like the first time
```

[Verse 2]
Cara   Put past behind   Let’s create new lives   Let’s run away together
Typical twenty something panopticon   She’s got big glasses on   She sees me   She really sees me

[Chorus]

```
G                             A     Em          D       G                  A    Em   D
She’s a door in a lucid dream    A miracle on 34th Street    A holiday beloved
G                             A                     Em                 D   G
I’ll confess she’s a drama queen    She makes it new    She makes it teenage every time
                        A       Em    D       G
With her feels like the first time
```
