Notes

There are only 4 chords used throughout the whole song, see below to see when said chords are played.

See notations below to see how & when Tag Riff 1 & 2 are played.

The Chorus strumming pattern is how I play the part, I treat the slide almost as it's own down strum (even though I don't strum). With enough nastiness & dirt on it, it sounds real, real heavy. Additionally, I only toggle on my Chorus Pedal on the notes that're notated above with <>. I push my level on my chorus pedal quite high to almost mimic harmonics being played.
