Notes

Just play these riffs non stop & use your ear to hear where the words lay in relation to the guitar part. If you can sing this and play it at the same time you're a different breed.

Sometimes I play octaves & slides rather than the little pulloff tags when I'm feeling naughty.

[Verse 1]
Drowned in neon light
Sirens warp behind

[Chorus]
There I go, here you stay Miles away
Gone fast as I come You'll be second sun
Second sun

[Verse 2]
Might uncover a mind Wait 'til planets realign

[Chorus]
Here I go, there you stay Miles away
Gone fast as I come You'll be my second sun
Second sun

[Outro]
Bite til the wire's frayed Live like the bill's paid Fall when the hues fade
Bite til the wire's frayed Live like the bill's paid Fall when the hues fade\
Bite till I Live like I Fall when I
Bite, live, forgive Scream this all is Fake
